St Mary's Church

In the tree-lined churchyard you can sit on a bench by its 1726 sundial and look down over the Mere, and find the grave of a man who lived through the reigns of seven monarchs.

When the church is open, you can explore this beautiful and stately building. Search for relics of the Crusaders who built an early chapel on its site, the tomb of Queen Elizabeth's cup bearer, the Charter for Ellesmere Market, which is more than 800 years old, beautiful Victorian tiles from Minton of Stoke on Trent and a grand covered font made by George Gilbert Scott.

St. Mary's Church is a lovely, peaceful place for prayer and reflection.

Around the Mere

The Mere is a stunning expanse of open water surrounded by fields and trees, promenade and park. The Mere was created at the end of the last Ice Age and is the largest of the 9 meres in the area covering 48 hectares (that's over 70 football pitches) and is nearly 19 metres at its deepest. Moscow island on The Mere is home to the heronry.

The Promenade is a very popular place all year round for bird watchers and those who enjoy feeding the ducks and swans; on warmer days visitors can enjoy an ice cream and during the summer months rowing boats and pedalos are available to hire.

The Cremorne Gardens go half way around The Mere and include a beautiful woodland walk from where there are stunning views back across The Mere towards the church. There's a well-equipped children's playground and a separate BMX track. From here it is a short walk into the centre of Ellesmere where you will find a selection of independent shops and eateries.

Fizzgigs is a voluntary community arts group that create, organise and contribute to a variety of events for the Ellesmere community.

These include:
- Street performances and music
- Carnival parades
- Community arts installations
- Creative lantern making workshops
- Community lantern parade at the Christmas Winter Festival
